## Itiviti expands support of equity options markets

– *Itiviti adds ISE and PHLX to expand equity options market reach; Plans for connectivity to BATS*

**Chicago – Wednesday, May 4, 2016** – Itiviti, a world-leading technology provider for the capital markets industry, today announced the release of two new gateways in the equity options space, augmenting the current offering of Chicago Board Options Exchange (CBOE) and CBOE's C2 with connectivity to Nasdaq PHLX and the International Securities Exchange (ISE).

With the addition of ISE and PHLX, clients can now access half of the US equity options volume on the three most liquid exchanges using Tbricks by Itiviti. Itiviti is committed to enhancing its offering for support of equity options trading and is currently developing connectivity to BATS options, which will be introduced to clients in mid-2016.

“We see a growing interest from existing and prospective clients to access PHLX and ISE, driven by recent developments in ETF options,” said Oscar Jonsson, VP Sales, Itiviti Americas. “Adding support for these markets to Itiviti’s powerful, robust equity options trading solution demonstrates our ability to anticipate and meet the needs of clients as their business evolves.”

The first trading platform designed from the ground up for today’s trading reality, Tbricks by Itiviti was designed to be customizable, scalable, co-located and blazingly fast. The modern architecture provides clients with the flexibility and performance of an in-house system, combined with the convenience of a third party solution. By providing an app library, Itiviti clients can add their own unique sets of functionality and unlock new capabilities to respond to changing market requirements.

***Itiviti participates in the 2016 Options Industry Conference, May 11-13, 2016 and will be happy to discuss the latest fintech offering.***

### **About Itiviti**

Itiviti is a world-leading technology provider for the capital markets industry. Trading firms, banks, brokers and institutional clients rely on Itiviti technology, solutions, and expertise for streamlining daily operations, while gaining sustainable competitive edge in global markets.

With 13 offices and serving more than 400 customers worldwide, Itiviti was formed by uniting Orc Group, a leader in trading and electronic execution, and CameronTec Group, the global standard in financial messaging infrastructure and connectivity. From its foundation in 2016, Itiviti has a staff of 400 and an estimated annual revenue of SEK 700 million.

Itiviti is committed to continuous innovation to deliver trading infrastructure built for today’s dynamic markets, offering highly adaptable platforms and solutions, enabling clients to stay ahead of competitive and regulatory challenges.

Itiviti is owned by Nordic Capital Fund VII.
