

JUMP

Itiviti and JUMP partner through NYFIX to offer a fully integrated straight-through processing (STP) order management and portfolio management solution.

Leveraging Itiviti's NYFIX, a leading multi-asset class trading broker network, the joint solution enables the buy-side financial industry to automate the front-to-back investment process.

Automate and streamline trading processing

- **Automated consolidation** of multi-platform and multi-asset class execution, within a single solution.
- **Simplification of order routing over FIX.**
- **Fully integrated STP** from front to back office.

JUMP, a fully integrated investment management solution

- **One unique solution covering front-to-back needs** (from OMS-PMS to Accounting), including a first-class integrated Reporting module, for a whole range of financial instruments.

- **Proven scalability and modularity** of the solution: references from Tier 3 to Tier 1, equipped with JUMP either on a limited scope (e.g. Reporting) or on the entire front-to-back scope.
- **Configuration and customisation capabilities** of JUMP solution enabling to configure without any development: reportings, controls, compliance, indicators, risk ratios, Asset pricers, customised user interfaces, etc.
- **Real-time experience** thanks to in-memory database and calculation motors.

Leverage the NYFIX service delivery platform

- Connect to one of the industry’s **broadest global low-latency trading hub** connecting over 1,500 buy-side, sell-side and trading venues across a full range of asset classes.
- Rely on a **secure and robust FIX-based electronic trading community** reporting zero service disruptions over the past 10 years.
- Benefit from **flexible configurable order routing capabilities**.

Key features

- Connect to 1500+ counterparties over a single network, NYFIX.
- Straight-through-processing across asset classes.
- Universal low-latency connectivity across asset classes and messaging formats.
- Pre- and post-trade capabilities.
- Direct and hosted venue connectivity.
- Simplify front-office workflow.
- Automate the trading process.
- Leverage additional NYFIX services.

Zero outage network	Regulatory compliance
